

OLLIE HANTON

I am a Senior Lecturer (Associate Professor) at the University of Bath working on the **3D printing of interactive devices**. My research vision is to develop materials, methods and tools to enable makers to personally fabricate free-form interactive devices. I hold an **HEA fellowship** for teaching, which I obtained through my responsibilities in convening and teaching two HCI units (HCI 1 and Theory of HCI).

EDUCATION

Computer Science PhD in Human Computer Interaction

November 2018 - April 2023

School of Computer Science, University of Bristol.

Thesis: ‘The Personal Fabrication of Irregularly Shaped Interactive Displays’

Computer Science MSc (Distinction)

2016 - 2017

School of Computer Science, University of Bristol.

Dissertation: ‘Creating Interactive Prototypes and Surfaces Using Capacitive Technology and 3D Printing’.

Mathematics BSc (2:1)

2012 - 2016

School of Mathematics, University of Bristol.

Dissertation: ‘The Mathematics Behind Google’.

PUBLISHED PEER-REVIEWED PAPERS (KEY OUTPUTS)

Dispray: The Design of an AR-Augmented Airbrush for Electroluminescent Display Fabrication (CHI 2026 Full Paper)

Hanton, O.; Lim, J.; Kotian, T.; Clarke, T. Fraser, M.; Roudaut, A.

The Personal Fabrication of Interactive Devices (book chapter, 4th Edition HCI Handbook)

Hanton, O.; Child, O.; Alexander, J.; Fraser, M.

Printegrated Circuits: Personal Fabrication of 3D Printed Devices with Embedded PCBs (TEI 2026 Full Paper)

Child, O.; Hanton, O.; Dawson, J.; Hodges, S.; Fraser, M.

DisplayFab: The State of the Art and a Roadmap in the Personal Fabrication of Free-Form Displays Using Active Materials and Additive Manufacturing (CHI 2024 Full Paper, Best Paper Honourable Mention)

Hanton, O.; Fraser, M.; Roudaut, A.

Tangible Explorations of Sonolithography (TEI 2024 Full Paper.)

Child, O.; Hanton, O.; Kellet, C.; Sutton, M.; Drinkwater, B.; Fraser, M.

FabricatINK: Personal Fabrication of Bespoke Displays Using Electronic Ink from Upcycled E Readers (CHI 2022 Full Paper)

Hanton, O.; Shen, Z.; Fraser, M.; Roudaut, A.

ProtoSpray: Combining 3D Printing and Spraying to Create Interactive Displays with Arbitrary Shapes (CHI 2020 Full Paper, Best Paper Honourable Mention)

Hanton, O.; Wessely, M.; Mueller, S.; Fraser, M.; Roudaut, A.

Sprayable User Interfaces: Prototyping Large-Scale Interactive Surfaces with Sensors and Displays (CHI 2020 Full Paper)

Wessely, M.; Sethapakdi, T.; Castillo, C.; Snowden, J.C.; Hanton, O.; Qamar, I.P.; Fraser, M.; Roudaut, A.; Mueller, S.

EMPLOYMENT

University of Bath - Senior Lecturer (Fixed post; Research and Teaching) *January 2023 - present*

· **Research:**

PhD and Post-doc supervision: I am currently supervising 6 PhD students, 5 of whom I am primary supervisor including securing of funding for, interviewing, recruiting and determining project directions with: Jack Dawson, Chaoyi Wu, Chai Worajitwannakul, Sunmi Lawal, Alex Gougoulaki, Teodora Dinca. I have also supervised (and secured funding for) post-doctoral researcher Hitesh Dommati (2024-2025).

Lab management: I am responsible for managing two physical lab spaces (maker spaces). This has involved day-to-day management of the lab over equipment, health and safety and coordination; securing of £90k internal funding for bespoke fabrication and test equipment; recruiting a lab technician through a departmental case for support and actively interviewing candidates; and carrying out a full lab move in April 2024 from 2 South to Wessex House.

Research enrichment and group building: I am an active member of the HCI@Bath research group and co-lead the 'Physical Computing@Bath' lab group with Professor Jason Alexander. I run weekly seminar sessions for the HCI@Bath research group (30 PGRs, 9 academics) as well as weekly lab meetings. I have secured funding (internal and external) for and supervised 11 student interns.

· **Teaching:**

Supervision: I have successfully supervised 20 BSc students and MSc students, with most students attaining a first level grade in their dissertations, 4 of those students currently carrying out PhDs and 2 further applying for PhD positions.

Lecturing responsibility:

I have been course convener for: 'Theory of HCI' and 'HCI 1', teaching a total of over 850 students.

· **Management and Leadership:**

Department of Computer Science EDI chair:

I have held the position of Department of Computer Science EDI chair. I have held a range of responsibilities including full handling of departmental culture surveys and led a range of inclusivity initiatives.

SciSys PLC - Software Developer

February 2018 - October 2018

- Full-time work on the development of an Android app using Xamarin, working in C# building off a C++ IOS codebase, including commendation for 'above and beyond' work.

RESEARCH FUNDING:

Principal Investigator on a **£97,000** grant awarded by the Pro2 Network+ (titled "Active Materials Library") 2023-2025.

Co-Investigator on a **£95,000** grant awarded by the Pro2 Network+ (titled "Hot, Wet and Robust Devices.") 2023-2025.

ACHIEVEMENTS AND AWARDS

- 2026 ACM TEI Special Recognition for **Sustainability Award**
- **Commendation for Exceptional Performance** on my research from the University of Bath academic staff committee.
- **Best Paper Honourable Mention** in CHI2024 conference proceedings.
- Winner of **Most Outstanding HEA Associate Fellow Portfolio 2021/22**.
- Finalist in STEM for Britain competition (2022).
- **Associate Fellow** of the Higher Education Academy qualification (2021).
- **Best Paper Honourable Mention** in CHI2020 conference proceedings.
- Bristol 3-minute thesis - second place, runner-up prize (2019).
- I have received **9 Special Recognitions** for Outstanding Peer Reviews.
